

Apart from the a la carte business "Kajüte" creates individual buffets and menus as well as decorations that are matched to the occasion, which provide the special atmosphere of a successful event.

The restaurant offers a suitable place for christenings to birthday celebrations, weddings, jubilees, obsequies right up to business events, presentations and seminars.

For the host the celebration is something extraordinary and for the organiser it is something special: no matter whether there are 10 or 100 people. The celebration should be a success! Buffets are also delivered to external venues!

 the spirit that ennobles everything,
